

Healthier and crispy results

The Series 40 AirFry oven provides a healthier alternative to oil frying. You can now enjoy the crunch of perfectly fried food - including your regular favourites as well as adding a tasty crunch to vegetables. For tender insides and crispy outsides with little or no oil.

Product Benefits & Features

Crispy food made simple with AirFry

The AirFry function with the innovative perforated AirFry tray lets air circulate around your food to evenly heat it from all angles. Removing the need for turning, so you can just enjoy the crunch of perfectly fried food.

- Economy variable grill
- Top heat
- Bottom heat
- Fan controlled defrosting
- Retractable oven controls with LED display
- Oven features:
- Clean 'n' clear enamel interior
- Chrome grid runners with auto-stop anti-tip shelves
- Fan cooled double glazed door with heat reflective glass

No more turning, with AirFry function

There's no need to turn or rearrange food during cooking with the AirFry function and specially designed tray. The tray has holes in the base, so food is evenly heated from all sides, without any need for oil. Tasty, healthy results made simple.

Sparkling results, with Aqua Clean

An additional cleaning tool is included inside the oven, called AquaClean. By adding water to the base, a humid environment is created with the oven's heat. So crumbs and splatters are easier to remove with damp cloth.

40% quicker warming, with Fast heat-up

Get your meal cooking sooner with the Fast heat-up function. Warming the oven 40% quicker than the standard.

Convection oven, for Even Cooking

The hot air generated inside the oven during cooking is moved around with a fan, so all your dishes receive the same amount of heat. This lets the oven heat up faster, which means you'll get the same results using 20% lower temperatures, saving time and using less energy.

Product Specification

Self-Cleaning?	Aqua Clean Enamel
Cavity coating	Grey Enamel
Dimensions (mm) (HxWxD)	589x594x568
Dimensions	600x560x550
Total electricity loading, W	2790
Voltage	220-240
Required Fuse	15
Frequency	50/60
Temperature range	50°C - 275°C
Cavity size	72
Largest Surface area	1424
Colour	Stainless steel with antifingerprint
Noise	53
Energy class	A+
Energy consumption, conventional mode, kWh per cycle	0.93
Energy consumption per EU standard cycle	0
ProdPartCode	All Open
